(U-055)

UTU-072858

December 12, 1994

ALVIN E HARRIS
MINING METALS INC
1510 EAST COPPER CREEK ROAD
SANDY UT 84093

Dear Mr. Harris:

Your notice to conduct mining related operations on unpatented, unserialized mining claims, located in SW/4, Sec. 10, T. 19 S., R. 14 W., SLBM, was received on November 28, 1994, and has been accepted by this office. Your notice has been assigned case file number UTU-072858. Please use this number in any future correspondence concerning this notice.

If you change your operation from what is described in your notice, you are required to contact this office prior to the change. *This Notice contains no provisions for any activities such as improving roads or, relocating ore, or processing ore on public lands.* If your operation extends for more than one year, please advise this office on the status of your mining related activity on the anniversary date of your notice.

Enclosed is a copy of the Conditions of Acceptance for BLM Mining Notices, stipulated by the Richfield District, Warm Springs Resource Area. Please follow these guidelines as they pertain to your operation.

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file this notice with them. A copy of your notice has also been sent to the Utah Department of Environmental Quality, Division of Water Quality (DWQ). DWQ should contact you concerning any permits you may need, however, their failure to do so does not absolve you from responsibility for obtaining the same.

Also, all mining claimants and operators intending to use, store, or divert water are required by Utah and Federal statute to notify the following agencies:

Utah Department of Water Resources
1636 West North Temple
Salt Lake City, Utah 84180-1203

and

U. S. Army Corps of Engineers
Utah Regulatory Office
1403 South 600 West, Suite A
Bountiful, Utah 84010

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands and reclamation is required at the earliest feasible time. Please notify this office upon completion of operations and reclamation so an inspection may be conducted on the site. Reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act.

1001 2

Enclosed is a map of Amasa Valley. The boundaries of Section 10, Township 19 South, Range 14 West, have been drawn in on the map, and the Section has been divided into quadrants. Also, the boundary line of the Notch Peak Wilderness Study Area (WSA) has been drawn on it. As it shows, only a small portion of the SW/4 of Section 10 lies outside the WSA Boundary. *Due to proximity of the WSA, and the ambiguity of the handdrawn map included with this Notice, only the stockpiles that lay in the SW/4 of Section 10 and outside the WSA boundaries are covered under this Notice.* If you wish to amend your Notice to include other stockpiles, please use a copy of this map to designate their locations.

Acceptance of your notice will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

Prior to the commencement of your operations, we would like to meet with you on site to review reclamation practices and initiate a reclamation plan. Please contact this office to arrange the meeting. If you have any questions regarding this letter, please feel free to contact Rody Cox at (801) 743-6811. Thank you for submitting your notice.

Sincerely,

For Rex Rowley
Area Manager
